

# Choose your pathway to a career in the creative industry

## Work out your creative journey

Everyone has different dreams and aspirations for their career and they happen at different stages. That's why at Natcoll we offer a range of courses at different levels with pathway opportunities for students to broaden their skills with further study or gain entry straight into the workforce. You have the option of several entry and exit points and we structure the timing of our courses so it is easy to finish one course and move straight into the start of a new one.
